

- 8:00am Wastewater O&M for Operations Specialists**
This session will discuss topics that affect the operation and maintenance of wastewater systems today.
- 9:00am Trenchless Underground Rehab**
Learn what options are available for you to rehab your collection system. Also learn what you should specify in the work you are having done on your collection system.
- 10:00am Generator Operation and Maintenance**
Most systems have emergency electrical backup power for their systems, but are you properly running and maintaining your system? See what you should be doing so the generator will be there when you need it.
- 11:00am Lift Station Upgrades and Retrofits**
Learn how to be involved and engaged in a pump station upgrade or retro-fit. Understand how to work with your pump company and engineers to gain maximum efficiency.
- 12:00pm Lunch - (On Your Own)**
- 1:00pm Prevent Struvite and Scale Issues by Flipping a Switch**
Learn how to create higher efficiency in dewatering, increase cake solids, reduce equipment downtime & extend service life.
- 2:00pm Life at the Kellogg's Ponds**
Get the inside information on how Kellogg runs their pond system from O&M to record keeping and how ponds perform at nutrient removal.
- 3:00pm Question and Answer Session**
A wrap-up of today's session with questions from operations specialists and further discussion around wastewater issues.
- 4:00pm End of Day**

July 12, 2018

City of Rushford
