

## 'Goin' Home'

This fast paced, audience interactive presentation, realistically reflects a "day in the life" of a utility employee. Several safety/security scenarios are presented, discussed and successfully overcome by the participants in order to return safely home EVERY day. New, experienced, inside/outside staff and management will enjoy the presentation style, photographs and videos that graphically depict the potentially dangerous and sometimes humorous encounters that utility employees may face daily. Challenges will include (not limited to) dealing with angry customers, de-escalating confrontations, emergency response plans (ERP), active shooter protocols, computer security, identity theft/fraud response(s) to minimize due-diligence litigations, connect/disconnects, motor vehicle operations and crashes, gangs/drugs, improvised explosives, clandestine drug labs, marijuana grows and counter-terrorism considerations.

### This is a "must see" experience! Learn your reason for "goin' home"?
