

MRWA WASTEWATER OPERATION & MAINTENANCE TRAINING SESSION

- 8:00am** **Wastewater Operation & Maintenance**
This session will cover topics that are affecting the operation and maintenance of wastewater systems and how MRWA can assist you.
- 9:00am** **Wastewater Ponds and Tank Mixing**
Proper mixing of wastewater treatment systems will help you reduce nutrients in your treatment system. This session will show mixing options for your water and wastewater system.
- 10:00am** **Chemical Feed, Disinfection, and Wastewater Equipment**
Maintenance and repair of your chemical feed, disinfection, and other equipment is critical for your wastewater operation. Learn what you need to do to keep your equipment up and running.
- 11:00am** **Coating Manholes and Large Infrastructure**
See what is available in coatings to protect your infrastructure and best practices.
- 12:00pm** **Lunch - (On Your Own)**
- 1:00pm** **Nutrient Removal at Wastewater Systems**
More and more systems are reaching limits in their wastewater permits. See what one small system did to achieve their limits.
- 2:00pm** **Winnebago Wastewater Treatment**
This session will discuss the red worm problem that they experienced, and proceed with a tour of the Winnebago wastewater treatment plant.
- 4:00pm** **End of Day**
