

MN Department of Health Wellhead Protection Planning Webinars

The Minnesota Department of Health will be hosting a series of webinars to assist in the development of Wellhead Protection (WHP) Plans.

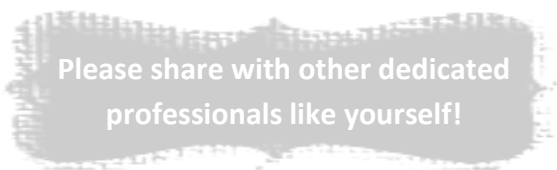

All 90-minute webinars held Thursdays from 11 am -12:30 pm

March 12: General overview of the *WHP Planning Process*

March 19: In depth discussion and review of *Data Elements*

March 26: Requirements for completing a *Potential Contaminant Source Inventory*

April 2: Developing well written *Management Strategies*

Please share with other dedicated professionals like yourself!

How to participate in webinars:

- ! To register, please email Sue Lang at Sue.Lang@state.mn.us Include your name, firm, address, phone number, and email address.

** By registering once you will be registered to participate in all the webinars. You may register up to three days before each webinar date.*

Once registered, you will receive individual e-mail confirmations from WebEx on how to participate in each webinar. Each WebEx email will include a toll free number and login code to participate in the webinar.

Course materials for the webinars will be available five days in advance of the webinar date at Minnesota Rural Water Association website:

www.mrwa.com/sourcewater.html

WebEx will work with most computer operating systems. For detailed information please visit the WebEx website at <http://www.webex.com/>

Information in this document and upcoming webinars is available in alternative formats to individuals with disabilities upon request, by calling or emailing George Minerich at: (320) 223-7314 or email at George.Minerich@state.mn.us
